

BIODIVERSIDADE – Esquemas de Anatomia e Morfologia Vegetal Professores Croti e Vânia

MERISTEMAS APICAIS

CARACTERÍSTICAS	FUNÇÃO

MERISTEMAS PRIMÁRIOS

NOME	CARACTERÍSTICAS	FUNÇÃO
Protoderma		
Meristema fundamental		
Procâmbio		

TECIDOS PRIMÁRIOS

NOME	CARACTERÍSTICAS	FUNÇÃO
Epiderme		
Esclerênquima		
Colênquima		
Parênquima		
Protoxilema		
Xilema primário		
Floema primário		

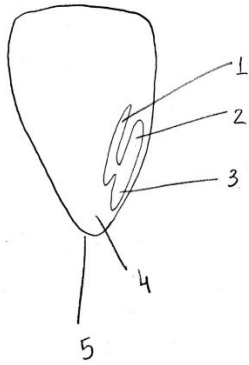

MERISTEMAS SECUNDÁRIOS

NOME	CARACTERÍSTICAS	FUNÇÃO
Câmbio fascicular		
Câmbio interfascicular		
Felogênio		

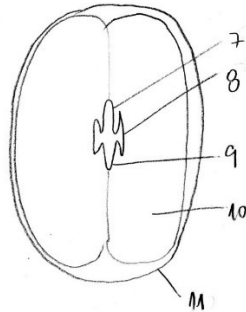

TECIDOS SECUNDÁRIOS

NOME	CARACTERÍSTICAS	FUNÇÃO
Súber		
Feloderma		
Xilema secundário		
Floema secundário
